

STOP THE SPREAD

Symptoms:

- A high temperature
- A new continuous cough – this means coughing a lot, for more than an hour, or 3 or more coughing episodes in 24 hours
- Loss of, or change in, your normal sense of smell or taste

Step 1: Symptoms

If your child or any member of the household develops symptoms- ALL STAY HOME

If the child or staff member are at school they will be sent home immediately

Step 2: Isolation

Stay home for 7 days and book a test -

Rest of household stays home for 14 days

Rest of Bubble will be alerted

Step 3: Negative Results

Where the child or staff member tests negative all isolation ends and anyone who is connected returns to school and work

Step 4: Positive Results

If the result is positive the person/child remains in isolation alongside their family

The rest of the Bubble also go into isolation for 14 days

School Action

PHE will be contacted. The rest of the school bubbles can continue as normal due to social distancing measures.

The affected bubble will be cleaned

School closed only if told by PHE (Public Health England)
