

*Improving our reading skills through the use of VIPERS (Vocabulary, inference, punctuation, explain, retrieval and summarising) in all Guided Reading sessions*

## **“Growing and Learning Together”**

**Continue to develop our teaching of maths using a “Mastery” Approach.**

**This will include our specific teaching of maths vocabulary as well as pushing all our pupils to do their best. We will also be looking at focusing on Fluency reasoning and problem solving, using Numicon as well as pictures to help us to understand our Maths.**

What are we doing to improve our school in 2018-19?

**Continuing to develop our Reception class and the use of the outside area to make it accessible and a fun place to learn.**

***In 2018-19 we will also be looking at refreshing the curriculum so that it remains relevant and inspiring to our children***
