

BEECH NEWS

Friday 11th March

Dear Parents and Carers,

This week in Art and Design, we created our very own bridges. We worked in teams using a variety of different resource to make sure our structure was stable. We worked really well in our teams and had so much fun trying to create our own unique bridges.

In our Maths lessons, we have begun our new decimal topic. We have been learning about tenths and hundredths and linked it to our previous fraction topic. We have all grasped the concept really well so far using resources and pictures to help us.

In Science, we have been learning to classify different types of animals. We have been looking at different types of animals and classifying them into their chosen groups. We have also been using the correct scientific terminology such as invertebrates and vertebrates.

In English, we have completed our very own traditional tale poems. We each decided on a traditional tale to write a poem about and then create a poem that rhymed, had certain syllables and had four lines per stanza. Mrs Child and Mr Brown were impressed and we were able to perform then to the class.

Beech attendance this week is 96.43%

Best wishes,

Beech team
